Triveni School

06/2016 - 04/2017

CGPA - 8.5

PRACTICAL EXPERIENCE

Trainee

Ticket Booking (By using PYTHON)

Description

- Architected and developed a command-line ticket booking system for Users by using technology stack Python ,importing modules like RANDOM and SYS for Uppal Cricket Stadium. Users can input their details, choose the booking type and seat type, and receive a detailed ticket with a randomized seat number and booking ID. The code efficiently calculates discount amounts based on the booking type, providing a seamless and user-friendly experience.

Trainee

Hotel Service Website

Description

- Architected a high-performing Hotel Service website using technology stack HTML, CSS, JavaScript, MySQL and Django. This website provides a seamless user experience, allowing users to explore services, make bookings, and manage their reservations. Conducted thorough data validation to ensure the accuracy. Implemented data storage and retrieval using SQL databases, ensuring the persistence and accuracy of user data.

Trainee

Responsive Portfolio

Description

- Architected and developed a responsive portfolio website using HTML, CSS, JavaScript, and Bootstrap. The responsive portfolio effectively presents my professional profile, showcasing skills, services, and projects in an aesthetically pleasing and user-friendly manner. Providing a comprehensive overview of my skills and accomplishments. Bootstrap's grid system ensures optimal layout and readability on devices of various screen sizes.
